DCM [t]	Up to 1400
DIMENSIONS L x D x H [m]	0,9 x 1,0 x 1,8

Fondarex aimed at creating a vacuum device to introduce foundries into the technology of vacuum die casting. The target was a simple, reliable and affordable equipment. The Fondarex TWO vacuum system can control either two valves or two chill vents and is recommended for die casting machines up to 1'400t or 2'200t (with TWO vacuum unit model 700 / 63).

NEW

SPECIFICATIONS

The Fondarex TWO vacuum unit has a newly redesigned user interface, making it understandable and user friendly. We thrived at developing a new product which is easy to use and requires low maintenance.

HOW TO USE THE VACUUM?

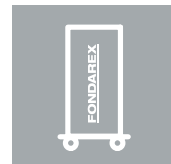

Fondarex chinese team can give you support in the installation of the vacuum equipment on your site and provide application studies beforehand to fit the vacuum technology into your dies and achieve the maximum performance.

**FONDAREX CHINA IS NOW EQUIPPED WITH
A TEST MACHINE TWO MOBILE 500 / 40
TO PERFORM TESTS AT YOUR SITE!**

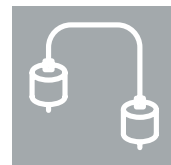

FUNCTIONS

Vacuum measurement in the cavity, with the display of the curve per cycle

Vacuum measurement in the tank during production
