

# DURAN® BOTTLE CAPS & CONNECTION SYSTEMS

## THE **PERFECT** MATCH – FROM STANDARD TO SPECIAL

In scientific procedures, nothing should be left to chance. Factors such as functionality, efficiency and cost-effectiveness in laboratories can be affected by apparently simple elements such as bottle caps and connection systems.

**DURAN®** offers a comprehensive product range of precision closure systems, starting with high-quality standard caps suitable for numerous scientific applications.

Our range also includes identification aids, special closures for sterilization processes, caps made of high performance materials for demanding applications, connection systems, security caps and transportation accessories. DURAN® caps and connection systems fit most DIN standard laboratory bottles made by other manufacturers.

ONE DURAN®
BOTTLE
SYSTEM

FOR ALL YOUR NEEDS

Starting with the ORIGINAL in 1972, the DURAN® laboratory bottles have continued to evolve to meet the diverse needs and applications of scientists and researchers around the world. The borosilicate glass 3.3 bottles are now available in the most comprehensive range of volumes and formats.

## DURAN® BOTTLE ACCESSORIES

A range of dedicated accessories that work perfectly with the DURAN® laboratory bottles. DURAN® accessories enable practical color coding, product labelling and identification. Most are reusable and long lasting just like the DURAN® bottles.

carrying system that focuses on the safety and convenience of users in the laboratory.

HIGH **PERFORMANCE** 

STERILIZATION

For more demanding processing conditions, or when the product requires a higher level of protection from the environment or contamination. Ideal for demanding applications in the pharmaceutical industry.

Membrane caps are recommended when

sterilizing media. These components improve the

safety and ease-of-use of the laboratory bottles during autoclaving or hot-air sterilization, and protect the contents from contamination.

Screw Cap Membrane Vented

Screw Cap **Membrane Vented** Blue, PP

**CONNECTION** 

**STEAM** 

The robust and durable DURAN® tubing connection systems allow the easy transfer of liquids under controlled conditions, reducing the risk of contamination. Connector elements are also available for probes and stirrers.

**Multiport Connector Cap** 2-, 3- or 4-ports, PTFE

**SECURITY AND TRANSPORTATION** 

When extra protection is required to ensure the safety of the contents and users during storage or transport. For example, by blocking ultraviolet light, ensuring contents aren't tampered with or making transport easier and safer.

The accurate identification of samples and reagents is integral to the scientific process. These components provide simple color coding or labelling of laboratory bottles.

The GL 25 Multiport Connector Caps fit the smaller DURAN® bottles and are ideal for adding or sampling liquids. Constructed from food contact safe materials.

DURAN® GL 45

**YOUTILITY®** 

Printable Labels, PS

The DURAN® bromobutyl rubber stopper provides a gas tight seal for all GL 45 laboratory bottles. Bromobutyl rubber is essentially impermeable to most gases, and provides a controlled environment inside the glass bottle for oxygen sensitive materials.

### DURAN® GL 45 BOTTLE CARRYING SYSTEM

The new modular Bottle Carrying System fits standard laboratory bottles that have a GL 45 neck finish and is compatible with four bottle sizes: 2, 5, 10 and 20 litres. It is ergonomically designed, and offers health & safety benefits to the user and allows easy and safe transport of bottles around the laboratory or production facility. It makes pouring liquids from the larger bottles more comfortable and safer. All materials are fully autoclavable.

#### Carrying Handle

- Carrying handle is suitable for bare or gloved hands
- Handle strap is flexible enough to allow pouring

#### Tightening Strap

- With indicator arrow
- End modified to prevent unthreading

#### Pouring Handle

- Ergonomically shaped
- Anti-slip grip

#### Silicone Support Base

- Structural support for base of larger 5, 10 and 20 litre bottles
- Protection of glass bottle base from impact during lifting or handling
- Acts as a spacer to protect glass from contact with Metal Dolly
- Moulded-in holes minimize liquid traps and allow maximum steam penetration during autoclaving

#### GL 45 Bottle Collar

- The collar is securely attached by pushing down over the GL 45 thread with 4 teeth that lock under transfer ring.
- The collar is only removable by cutting so attachment is 100% secure in use
- A cut line indicator for removal of collar when required

#### Horizontal Straps

- Durable stitched construction
- Made from "anti-slip" material

Lot Specific Retrace Code for traceability and certification

#### Optional Extra: Metal Dolly

- Stainless steel dolly for 10 or 20 litre bottles (2 sizes only)
- Fully compatible with carrying system
- Easy to clean, crevice-free construction
- Optional handle is available for easier handling

## FOR EASY AND SAFE CARRYING & POURING

#### Easy and safe carrying using handle

Handle attaches at the neck and fully supports the base

#### Safe and controlled pouring using handle

 Safer pouring of liquids using a second lower "Pouring Handle" located on the side strap (Available on the 5 and 10 litre carriers only)

of the polypropylene straps with two side strap adjusters for the larger 5, 10 and 20 litre bottles

#### ${\bf 2\;L\;bottle\;carrier\;in\;4\;colors}$
