“The trade medium for automation and digitisation”

The monthly “at – aktuelle technik” is the leading specialist trade medium in the field of automation, industrial electronics, electrical engineering and digital transformation in Switzerland. Since 48 years, “at” publication has provided up-to-date information current and exclusive reports on innovative technologies, trends, trade fairs, products, processes and applications within the relevant industries. The “at” serves as the information source for decision-makers in Swiss technology sectors with additional exclusive contributions from research and development, interviews with well-known personalities and reports from universities.

“With the ‘at’, you will not miss any trends in automation and digitalisation.”

Anne Richter
Editor-in-chief

Editorial Contents

Drive technology

Complete drives, gearboxes, electric motors, motion control, frequency converters, speed controllers and encoders, energy efficiency, pneumatics and hydraulics

Automation and robotics

Automation systems and infrastructure, industrial robots, service robotics, collaborative robots, artificial intelligence and software, driverless transport systems, robot controls, programming and simulation, assembly cells, vacuum systems, grippers, handling technology, clamping devices, positioning systems, rotating and swiveling units, operating systems, usability

Measurement technology, sensors and vision

Image processing, camera systems, sensors, IBV software

Control, regulation and testing technology

Measuring devices, PC measurement technology, energy measurement technology, signal acquisition, measuring transducers, data loggers, relays, controls, industrial computers and operating systems, security technology, industrial communication, fieldbuses, I/O modules, switches, gateways, sensor-actuator communication, I/O-Link, OPC-UA, MMS, panels, keyboards, UX, usability

Connection and supply technology

Electrical installations, housings and control cabinet technology, power supplies (AC/DC, converters, power supplies, UPS systems, switchgear, busbars, surge protection, EMC, energy technology), connectors

Electronics and electronics manufacturing

Embedded systems, microcontrollers, processors, FPGAs, embedded boards and modules, IoT, SoCs, Intelligent Edge, electronic

components, memory, connection technology, drive electronics, housing technology and cabinets, electronic design, lighting technology and optoelectronics, power supplies, circuit protection, electronics manufacturing, Circuit board technology, resistors, capacitors, inductors and transformers, measurement technology

Software and Engineering

E-CAD, 3D engineering, simulation, digital twin, data management, machine learning, VR/AR, virtual commissioning, programming, standards, security, data networks and cloud, production control, process visualization

Process automation and control technology

Automation and MSR technology, instrumentation, sensors, measurement, control and laboratory technology, process analytics, weighing technology, process and operations control technology

Fluid engineering

Pumps, compressors, compressed air technology, vacuum technology, fittings, valves, seals, pipes, hoses, fittings

Initial and continuing education

Permanent topics

Industry 4.0, digitalization, artificial intelligence

Industry sectors

General mechanical engineering, special mechanical engineering, engineering, medical technology, plant engineering, process technology, food technology, logistics and packaging, water and wastewater management, renewable energies, heating and refrigeration technology, research and development

Branded magazine

Your Customer Magazine

Partnering with a team that speaks your language

A great customer magazine builds connection. It shows who you are, what you can do, and what makes your technology stand out. Together with you, we create high-quality publications that communicate your message clearly, authentically, and with real technical depth.

Whether it's manufacturing technology, automation, drive systems, or sensor solutions – we understand your world. Our technically skilled editorial team combines expertise in mechanical and process engineering, aerospace, physics, and business. The result is content that doesn't just inform – it excites and inspires.

We know how to make complex technology accessible and engaging – through both words and visuals. And we showcase your innovations in the best possible light, because we speak the language of your designers, engineers, and production specialists.

From concept development to writing, design, and print preparation – and even distribution if you wish – we support you reliably at every step.

Your technologies deserve attention.

We turn them into a customer magazine that makes an impact.

Examples of company magazines that thematically cover the portfolio in which Vogel Communications Group AG has a high level of specialist expertise.

B2B-Content Marketing

Are you in need of high-quality content that is versatile and capable of generating leads? Do you seek assistance with writing or creating content formats? Our specialist editors will craft content tailored to your needs, ensuring it has the professional depth required to engage your target audience effectively. Additionally, you can opt for a digital package that includes newsletter distribution and online publication.

You have advanced technologies and solutions that can benefit customers, and you aim to reach a broader audience of specialists interested in your solutions. If so, please get in touch with us – we look forward to collaborating with you to enhance your marketing success. Our editorial team will craft a company profile for you, and a journalist will visit to work with you in developing the portrait together.

Company Profile

The Content Hub for Your Target Group

The company profile is a platform for your company to distinctively present your products and services.

Your profile will be linked to related technical articles and your content will be included in Vogel's industry media newsletters.

This way, you can be where your target group is – to demonstrate presence and to be remembered.

Your Benefit

- **Top-quality content mix**

Your company profile is populated with both your own material and with related articles by our editors.

- **Enhanced findability**

Enhance the visibility and reach of your content through search engine optimised integration in articles and newsletters. Bring traffic to your website and improve your ranking.

- **Defined target group – minimum waste coverage**

Reach exactly the right users: Your company profile is placed in the professional media read by the decision makers in your target group.

- **Transparent reporting and easy updates in our Customer Center**

You can access values for ad impressions, clicks and CTR at any time to efficiently measure the success of your company profile.

Price per Year

Innovation – Expertise – Inspiration

Welcome to the Podcast of the Swiss MEM Industry

- 🎧 **Meet the People Shaping Swiss Industry:** Engineers, entrepreneurs, executives, and visionaries. In bilingual conversations (French or German), we explore remarkable careers, technological breakthroughs, and innovations driving the MEM sector into the future.
- 🎧 **A Gathering Place for Learning and Inspiration:** For anyone eager to understand, learn, and be inspired – right at the heart of Swiss industry.
- 🎧 **Your Boost of Industrial Energy:** Anytime, anywhere.

Event

at-Technologietag Automation

Drives – controls – sensors – vision – electronics – software – measurement technology – engineering

The „at-Technologietag Automation“ is an important industry meeting point for industrial automation and digitalization in Switzerland and covers the entire value chain of automation in the industrial environment.

With specialist lectures and on an exhibition area, specialists will present their solutions, innovations and latest technological developments as well as best practice examples and use cases. All areas of automation for mechanical engineering and electrical engineering are covered: drives, controls, measurement technology, vision systems, sensors, power electronics, software.

Date: October/November 2026

Participant: around 100 participants

Target audience: Developers, designers, automation specialists,
Engineers, managing directors

Further information: at-technologietag.ch

Testimonial

“For us at Sigmatek, at – aktuelle technik is the ideal medium for presenting our automation solutions and services in Switzerland with product presentations and technical reports. The fact that at – aktuelle technik has a strong presence both in print and on online channels helps to significantly increase our level of recognition.”

Beat Meili
Managing Director & Sales Vorarlberg,
SIGMATEK Schweiz AG

Giovanni Grazioso
Country Manager Switzerland
Rutronik Elektronische Bauelemente AG

“For us as a broadline distributor, at – aktuelle technik offers an important platform to present ourselves as a solution provider, to communicate our expertise to a broad readership and to present ourselves as a brand on the market. We greatly appreciate the co-operation with the team of at – aktuelle technik.”

“I want to thank the at – aktuelle technik team for the fast and uncomplicated cooperation. We have received an interesting and specific enquiry from a major industry supplier for an online publication in at – aktuelle technik. It is interesting to note that a German company found what it was looking for in a Swiss magazine. Perfect.”

Markus Bicker
Managing Director
Bicker Elektronik GmbH

Marcel Pecka,
Projektleiter
Bürki Electric AG

“In unserem Team ist die aktuelle Ausgabe der at – aktuelle technik immer im Umlauf und wird von den Projektleitern regelmässig gelesen. Besonders die Fachartikel und Interviews bieten wertvolle Impulse für unsere Projekte.”
